

SUMIT MAURYA

Full Stack Developer

Full-Stack Developer with 6+ months of professional experience building scalable web apps. Proven track record of optimizing performance (50% API improvements, 40% faster load times) and implementing secure solutions. Expertise in MERN stack, cloud deployment, and delivering measurable business impact.

Projects

Shortie - URL Shortener (shortie-9fgs.onrender.com)

- **Built** a full-stack MERN application (React.js, Node.js/Express, MongoDB) to generate, manage, and track custom short URLs and QR codes.
- **Implemented** Redis caching on the backend to reduce average API response time by 50%, and added React code-splitting with gzip compression on the frontend—resulting in a 35% faster time-to-interactive.
- **Enforced** security best practices (Helmet headers, rate limiting, CORS protection, and input validation) to mitigate XSS, CSRF, and DDoS risks.
- **Designed** a responsive, mobile-first interface in Tailwind CSS with Clipboard.js integration for one-click URL copying and built-in social sharing widgets to boost user engagement by 20%.

NeuralDrive - Self-Driving Car Simulation (neuraldrive.vercel.app)

- **Developed** a pure JavaScript neural network trained via a genetic algorithm to autonomously navigate simulated traffic, achieving a 12% higher lane-keeping accuracy compared to the baseline.
- **Engineered** an advanced sensor suite (object classification, speed detection, distance measurement) that streams real-time data to the neural network for decision making.
- **Visualized** AI performance metrics and training progress in real time.

Hand Cricket Game (hndcricket.netlify.app)

- **Created** a Progressive Web App (PWA) with offline support via Service Workers, ensuring seamless gameplay even in low-connectivity environments.
- **Implemented** core game mechanics—including coin toss logic, dynamic innings transitions, interactive wicket animations, and three difficulty levels—resulting in a 25% increase in average session duration.
- **Persisted** user statistics and match history in localStorage, allowing players to track performance, high scores, and win/loss records across sessions.
- **Designed** an intuitive, responsive UI/UX using CSS Grid and Flexbox, guaranteeing a consistent experience on both desktop and mobile devices.

Experience

Full-Stack Developer

silsha.com, Remote

December 2024 – May 2025

- **Architected and deployed** a full-stack multi-vendor e-commerce platform using React.js, Node.js/Express.js, and MongoDB with role-based access for customers, vendors, and administrators.
- **Reduced** initial page load time by 40% by implementing React lazy loading, route-based code splitting, image optimization, and gzip compression.
- **Developed** JWT-based authentication with role-based access control (Customer, Vendor, Admin) and integrated the PhonePe payment gateway.
- **Built** a comprehensive vendor portal allowing product management, order processing, sales analytics, and bank account integration for payments.
- **Crafted** an admin dashboard featuring vendor approval, product moderation tools, category management.

Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, C++
 - **Frontend Technologies:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Progressive Web Apps
 - **Backend Technologies:** Node.js, Express.js, RESTful APIs, Microservices Architecture
 - **Databases & Caching:** MongoDB (Atlas), PostgreSQL, Redis, RabbitMQ
 - **Cloud & DevOps:** AWS (EC2, S3, Lambda), Docker, Docker Compose, Nginx
 - **Security & Authentication:** JWT, OAuth2, Helmet, CORS
 - **Development Practices:** Agile Methodology, Version Control (Git/GitHub), Code Splitting, Testing (Jest)
-

Education

B.E. - Artificial Intelligence & Machine Learning

Universal College of Engineering | Mumbai | Expected Graduation: 2026

Relevant Coursework: Data Structures & Algorithms, Machine Learning, Database Systems, Software Engineering

Higher Secondary Certificate (HSC)

Divine Junior College | Mumbai | 2020 - 2022

Accomplishment

- **Meta Hacker Cup 2024:** Ranked 5,501 out of 22,494 participants in Human Track competition.
- **College DSA Hackathon:** Secured RANK 4 position, demonstrating strong problem-solving skills.
- **Competitive Programming:** CodeChef [Rating](#) of 1533 (as of May 2025), showcasing algorithmic thinking.
- **Hackathon Experience:** 7+ hackathons participated, consistently delivering innovative solutions under time constraints.
